DETAILED ACTION

Drawings

1. Figures 3a and 3b should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by U.S. Patent No. 4,787,880 to Ausnit (Ausnit '880).

It is brought to applicant's attention that the last line of the Abstract in Ausnit '880 states, "Proper orientation of the zipper strip relative to the mouth end of the bag is facilitated by differentiating the profile parts as by contrasting color."

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1 and 2 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. Patent No. 6,030,123 to Mitarai (Mitarai '123) and U.S. Patent No. 6,925,688 to Savicki (Savicki '688).

Mitarai '123 discloses the claimed device except for the first and second base tapes being colored differently. Savicki '688 discloses that it is known in the art to provide a different color on each base tape in an analogous zipper. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the first and second base tapes of Mitarai '123 with the different colors of Savicki '688, in order to provide visual indication that the zipper has been properly occluded.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
